Molding

- **Shape by Hand:** Make things like bowls and cups with your hands.
- **Smooth Edges:** You can smooth the shape as you work.
- **Adjust as You Go:** Change the shape if needed.

Coiling

- **Roll the Clay:** Make long, thin strips of clay.
- **Stack the Strips:** Build your piece by stacking the strips.
- **Smooth the Joints:** Blend where the strips join.

Pinching

- **Start Small:** Pinch a ball of clay with your fingers.

- **Shape the Piece:** Keep pinching to make a bowl or pot.
- **Thin the Walls:** Pinching makes the walls thin and even.

Slab Building

- **Roll the Clay:** Flatten the clay into even sheets.
- **Cut and Join:** Cut the slabs and press them together.
- **Make Shapes:** Good for boxes or vases.

Carving

- **Add Patterns:** Use tools to carve designs into your piece.
- **Add Details:** Carving makes your piece unique.
- **Textures:** You can carve different textures or shapes.

Glazing

- **Pick a Color:** Choose a glaze to add color and shine.
- **Apply Evenly:** Brush or dip your piece in glaze.
- **Try Different Glazes:** Experiment with different colors and finishes.

Drying

- **Let It Dry:** Let the clay dry slowly at room temperature.
- **Cover It:** If it's drying too fast, cover it with plastic.
- **Dry Before Firing:** Make sure it's fully dry before firing.

Firing

- **Kiln Firing:** Bake the clay in a kiln to harden it.
- **First Firing:** This makes the clay firm before glazing.
- **Second Firing:** This sets the glaze.

Smoothing

- **Use Water:** Wet your hands or a sponge to smooth the clay.
- **Fix Bumps:** Smooth out any rough spots.
- **Polish:** Make the surface nice and smooth.

Fixing Mistakes

- **Repair Cracks:** Wet and press the broken pieces together.
- **Fill Holes:** Add clay to fix any holes or cracks.
- **Keep Trying:** Mistakes are okay, just keep practicing.
