Table of Contents

What is SIDP

SIDP stands for **School Innovation Development Project**. It helps students come up with creative ideas to improve their school or community.

The goal is to use creativity to solve problems, like using technology, making things more sustainable, or improving how things work at school.

With SIDP, students can turn their ideas into real projects that make a positive difference. It's a fun way to help others and improve your surroundings!

Choosing the Right SIDP Project

Here's how to pick the right SIDP project:

Tip	Description
Pick Something You Like	Choose a project that excites you. It could be about tech, the environment, or helping people.
Find a Problem to Solve	Look for something that needs improvement at school or in your community.
Be Creative	Think of new ways to solve the problem.
Make Sure It's Possible	Pick a project you can actually do with the time and tools you have.
Ask for Advice	Talk to teachers, friends, or family for ideas and feedback.

Choose a project that is fun, doable, and helpful!
